הנדון : TANDU Technologies and Security Systems LTD., Letter of Recommendation

Dear Sir, Madam,

TANDU Technologies and Security Systems LTD. is engaged by the Israeli Ministry of Public Safety, in the past 4 years, as a security consultant.

The services performed by TANDU Technologies and Security Systems LTD. include technological and operational risk survey in over 50 municipalities country wide, definition of the operational needs and requirements for security systems, definition of the security concept and security concept of operation, development of a national RFP for the procurement, installation and integration of security systems and support through procurement. In addition, the company is engaged by dozens of municipalities for the definition of the operational requirement for security systems and detailed design of command and control centers and security systems.

The company team presented high level of professionalism and outstanding
