**To:** Whom it May Concern

**Subject:** Recommendation on TANDU Technologies and Security Systems LTD

Dear Sir, Madam,

TANDU Technologies and Security Systems LTD. was retained by the Security Department of the Israeli Ministry of Agriculture & Rural Development, for project management and the design of integrated security systems for its office locations throughout the country.

TANDU is engaged in definition of the command and control concept, design of the national command and control center, risk assessments and detailed design of security systems for the office locations.

The company recently completed the development of the tender for the supply, installation, integration and maintenance of security systems and will manage security systems implementation process.

The team working with us is very proficient, cooperative and knowledgeable, and offers swift and professional response to our changing needs and requirements.

Yours Truly,

Netanel Levy  
Deputy Director  
Security Department
